

MICROTEL INN & SUITES BY WYNDHAM

THE HOTEL THAT JUST MAKES SENSE.

With smart design and award-winning service, Microtel continues to be a leader in the mid-scale category, over-delivering on both guest and owner expectations.

Every Microtel is purpose-built, making it the only all-new construction hotel chain in the mid-scale segment, excluding extended stay. The cutting-edge prototype paired with the development, construction and management expertise of MasterBUILT Hotels is an attractive opportunity for developers and owners, enabling a turnkey solution that reduces risk, shortens construction timelines and minimizes costs. As a pure new-build brand, Microtel has developed a portfolio of consistently high-quality and high-performing properties.

BE A PART OF MICROTEL'S CANADIAN EXPANSION

Microtel by Wyndham attracts travellers looking for a simple and streamlined experience that still feels stylish and modern. The new *Moda* prototype is designed to drive even greater returns for owners. Our value-engineered prototype and expanded support model is the transformative next step for Microtel, a mid-scale brand that achieves top-of-the-market RevPAR within its competitive set.
